32nd ANNUAL AWARDS OF EXCELLENCE WINNERS ANNOUNCED BY *TECH & LEARNING* MAGAZINE

Outstanding Education Technology Products Saluted

SAN BRUNO, CA (October 31, 2014) – *Tech & Learning* magazine today named 102 education technology products as winners in its prestigious 32-year-old recognition program. Honored software, hardware, network and web products include innovative applications that break new ground as well as those that added significant enhancements to proven education tools.

"Once again this year our judges had the pleasurable duty to evaluate more than 150 edtech products," says *Tech & Learning* Content Director Kevin Hogan. "Each is put through the proverbial wringer: How well does it work in the classroom environment? How easy is it for students and teacher to use? And, most importantly, how effective is it in improving learning? Not a simple task. Congratulations to all of the winners."

Entries were divided into two categories: New Products and Best Upgraded Products. Winning selections include software and web-based products, as well as hardware and AV tools. Among the high-quality offerings being honored are resources addressing management, safety, communication, differentiated learning, assessment, and other key areas in education.

Please join us in congratulating the New Product winners of the 2014 *Tech & Learning* Awards of Excellence. Look for detailed descriptions and judges' comments in the December 2014 Awards Issue.

NEW PRODUCT WINNERS

Company Name	*Product Name*
ABC-CLIO	Modern Genocide: Understanding Causes and Consequences
Acer America	Acer C720 Chromebook

Acer America Corp.	Acer TravelMate B113-M-6889
